Ceramica
 600 x 600 mm

Taking forward the tradition of innovation in tiles, Somany presents "Slip Shield" floor tiles in which a coating is applied on the tiles which keeps the co-efficient of friction high even when the surface is wet and soapy[*ramp value>R11]. This preempts any possibility of slipping. Furthermore, the coating allows for limitless design possibilities, making Somany Slip Shield tiles well suited to liven-up frequently wet areas in homes, as also high traffic areas like malls and restaurants.

Somany Slip Shield tiles are also resistant to graze and blemish and hence lend a sense of timelessness to the design. While being highly functional in nature and easy to maintain, the tiles create a distinctive ambience and "feel" even to utility areas.

Somany Slip Shield tiles have been independently tested and certified by the Ceramic Research Company, Malaysia, which the foremost independent institution in the world for scientific research in physical, chemical & thermal properties of ceramic products.

Marble Interpret the Classic Elegance

When it comes to timeless style, you just can't beat marble! Marble inspired accents are a great way to achieve a beautiful natural feature in new builds or renovations. Capturing the inherent natural beauty of this coveted natural stone, this textured tile covers the whole spectrum of veining, coloring and textures. Cool, rich and elegant, it stands distinguished among tile flooring with a variety of colors from grey to cream-colored, with contrasting veins that deliver a unique appearance. Marble tiles can have multiple finishes from polished to honed, and brushed to tumbled. Whether you combine similar or contrasting tones, this tile will instantly elevate the image of any room.

The classic high end look of marble is now for everyone to flaunt. And our ceramic tiles from the house of Somany in every imaginable format are ready to deliver

WOODENCOLLECTION

CERAMIC FLOOR TILES COLLECTION

Ceramika
600 x 600 mm

Tiles made of wood or wood look-like tiles? Keep people guessing with this awesome range of tiles with wooden finish. While the admirers will keep coming in - your tiles will be as good as new. Anti-slip features with great design patterns that look like wooden floor boards or planks - these tiles will dominate your space with cool looks. With dirt resistant surface, they are easy to maintain. Additionally, the design doesn't come off easily due to several coatings on the original design. You can rest easy with the wood feel.

DESIGN, PATTERN & SHADE VARIATION GUIDE

Current development efforts have made ceramic tiles to resemble and look authentically identical to natural material (Stone, Wood, Fabric), and it has become increasingly difficult in many cases, to distinguish between two.

Recognising this situation, it is necessary to be informed on the grade of design & pattern variation that is expected from these products. As a general reference, the design & Pattern guide below classifies a scale of ranges according to the degree of variation.

V1 Uniform Appearance V2 Slight Variation V3 Moderate Variation V4 Substantial Variation

The classification is as follows:

V1 Minimal Variation V2 Random Variation V3 Slight Variation V4 Substantial Variation

High Definition Image

While laying the tiles please follow the arrow on the back of the tiles.

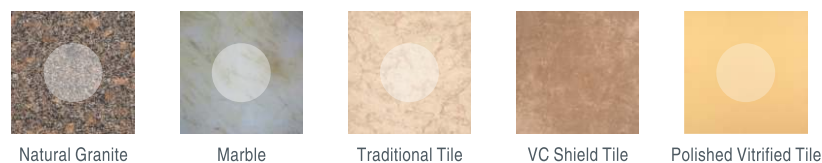

For removing the wax from the surface of the tiles please use the soft cotton cloth for rubbing with any boric/talk powder

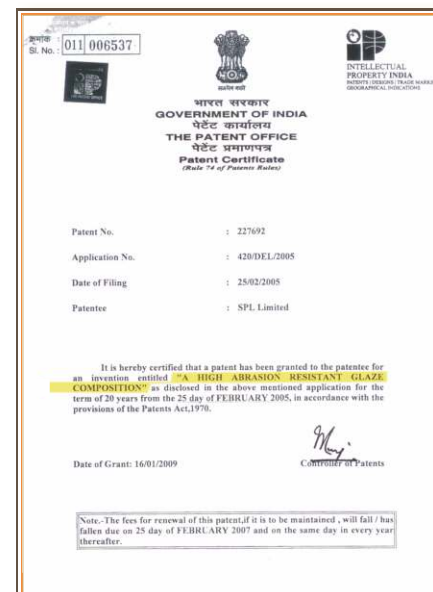

VEILCRAFT (VC) SHIELD

Not only look and style; the buzz word for the Gen X tile is timeless elegance. Here comes the revolutionary patented "VeilCraft (VC) Shield" technology, a 'high abrasion resistant glaze composition', known as VC (VeilCraft) Shield. This is the first ever patented technology in Indian Ceramic Industry. This not only gives you the perfect aesthetics for your space but also the lifelong protection to your floor.

Result Of The abrasion test at 25,000 revolutions as per the PEI Methodology

Patent Certificate for
"High Abrasion Resistant Glaze"
applied on VC Shield Tiles
